Subject: RE: Need input on AZ management call agenda

Hi David,

I put Nogales on the agenda due to the larger breach issue just so we can stay up to date on how it's being handled.

Regarding the EOY schedule, I'm waiting for some feedback from Corine on how early they could hold their individual session (as they usually wait for a separate report that comes later than the 4th Quarter Output Report). Last year, the schedule occurred over 4 months (holding individual sessions, EOY write-ups and compiling the report, and holding the closeout meeting), so I think it would be good to try to tighten it up. I was going to refer to EOY during the reminder for the 4th Quarter Output Report, so I'll just include that explicitly in the agenda.

Thanks,

Elizabeth

Thanks Elizabeth. We are talking to Trevor on Wed. next week about the Nogales pre-treatment issue. Is that your item 3, or is it a broader Nogales discussion (e.g., the recent breach at Manhole 89)? Also, maybe we could talk about the approach and general timing for the EOY.

Otherwise, looks good.

Thanks,
David

Subject: Need input on AZ management call agenda

Hi David,

Below is a proposed draft agenda for our monthly call with Trevor next Friday. Please let me know if you have anything to add or want anything changed.

Draft Agenda

1. Budget/organization updates
2. Reminder regarding 4th Quarter Output Report due date
3. Nogales
4. Cameron Trading Post
5. Hillside middle pile
6. Status of discussions around JDs
7. Florence Copper and Excelsior updates

Thanks,

Elizabeth
